SAMPLE

"Bidder-Design" HVAC System Bid Review Scoring Sheet Page 1

General

Prior to scoring the bid proposals, the district facilities planner will review the descriptive data (catalog cuts, manufacturers design data and performance data) along with plan and elevational

drawings included to describe the extent of the work presented by the bidder and in the proposal.

The review will enable the facilities planner to analyze the merits of the proposal and make a selection in order to determine the successful bidder. The bid proposal maker is encouraged to include enough descriptive data to enable the facilities planner to easily recognize the merits of the bidder's proposal. The lowest scoring bidder will reflect the greatest number of desirable attributes however, all scores are subject to closer scrutiny for verification and validation.

System Type:

| Standard HVAC package units | Standard heat pump package units | |
|---|----------------------------------|--|
| Propane [] | Propane [] | |
| Electrical [] | Electrical [] | |
| System Operation Cost: (from bid proposals) | | |
| Estimated Annual Maintenance Cost: | \$ | |
| Rating (points) Low (1) Average (3) High (| (5) Points | |
| Estimated Annual Fuel Cost: | \$ | |
| Rating (points) Low (1) Average (3) High (| (5) Points | |
| total annual cost: \$ | | |
| [] annual operating cost exceeds current cost | | |

Installation Cost:

| Rating (points) | Description | | |
|------------------------|--------------------------------------|----------------------|---|
| 5 | Surpasses budget by more | than 20% | |
| 4 | Surpasses budget by 15° | % - 20% | |
| 3 | Surpasses budget by 10 ^o | % - 15% | |
| 2 | Surpasses budget by 5% | 6 - 10% | |
| 1 | Surpasses budget by un | ıder 5% | |
| 0 | Meets or is less than budg | et amount | |
